Alcune finiture sono disponibili solo per determinati prodotti. I codici RAL e NCS sono definiti dal produttore. Nonostante le cure apportate alla realizzazione di questa cartella colori ed i continui controlli di qualità effettuati sulla verniciatura dei nostri caloriferi, il prodotto finito può presentare lievi differenze rispetto alla cartella colori o ad altri materiali di riferimento (ceramica, carta, metallo ...). In funzione dei metodi di produzione adottati, i prodotti possono presentare lievi differenze rispetto alla tonalità del colore e/o alla sua brillantezza.
